

Date: 27-9-2010

Volume: VIII

XLTELE - The stock has been underperforming the market since a long time and has not at all participated in the recent rally which the markets have seen. The stock is close to its year lows, the immediate resistance for the stock is at 32.2. Once the stock manages to close above 32.2, we can see phenomenal upside in the stock.

Short Term traders can buy the stock above 32.2 with a stoploss of 26 and targets of 38-47, traders can add more on dips to 30-28. Medium term traders can buy the stock on close above 32.2 and on dips to 28-25 with stoploss of 24 targets of 42-68.

SUJANA TOWERS – The stock is in a continuous uptrend and once can see a fresh breakout in the stock on close above 75. Short Term Traders can buy above 75 with stoploss of 67.5 and targets of 83-97. Medium term traders can buy at 70 and on dips to 65 with stoploss of 59 and targets of 88-109.

AQUA - One can buy the stock on a close above 642, above which we can see the stock reaching the levels of 710-770 with a stoploss of 604

ORCHID CHEMICALS – The stock is in a consolidation phase since a long time, we can see a fresh wave of uptrend if the stock manages to close above the levels of 216. Short Term traders can buy the stock above 216 with a stoploss of 198 targets of 233-260. Medium term traders can buy the stock on close above 216 with targets of 276-380 with stoploss of 184
